Product Name	Piper Computer Kit
Age Range	8+
Package Dimensions	15 1/2" x 10 1/2" x 3 1/2"
Unit Weight	5.5 lbs.
Product Video	https://vimeo.com/154755856
Company Tagline	Build your first computer
Product Tagline	What will you create?
Short Description	The Piper Computer Kit is a computer kids build themselves to play Piper's custom software that will teach them to build physical hardware while taking them on a digital adventure. It also serves as an invention platform to build and create new technology.
Long Description	The Piper Computer Kit lets you build a fully functioning computer with a Raspberry Pi board (sold separately) and Piper's custom software. Kids complete a story mode narrative where they help the Piper character, Piperbot save earth from a giant cheesteroid. In the process they will build buzzers, buttons, switches, and LED lights to complete each mission. Piper comes with everything needed and includes new software updates for more content and gameplay.
Features	<ul style="list-style-type: none"> ● 100+ individual computer components ● LCD Screen ● MicroSD Card with 16gb Storage ● Lithium Ion Rechargeable Battery ● Mouse, Speaker, Screwdriver ● Electronic gadgets (breadboards, jumper wires, buttons, switches, LED lights, buzzer) ● 20+ custom Minecraft: Pi Edition games ● Other apps including Scratch and Python ● Free software updates with new games and features ● Free lesson plans for educators
